Subject: Re: Lake Simcoe Watch election questionnaire

Hello Jack,

I remember a similar request from the election of June 2022 and it was at that time, and still is the intent of the Green Party to "implement a plan for cutting phosphorus entering Lake Simcoe to 44 tonnes by 2026 and support the creation of a phosphorus recycling facility."

The quote is taken from The Green Plan which was the platform document from 2022.
